2.2 Catering to Student Diversity

2.2.1 The institution assesses the learning levels of the students, after admission and organises special programs for advanced learners and slow learners

Response:

The students admitted to various programs are selected through entrance examinations conducted by the departments concerned. Through this exercise, the students' aptitude, knowledge and skills are assessed. Then accordingly, a bridge course is planned and conducted for a week's time. The most important and the most common problem faced by the Faculty across all the departments is the Communication skills of the students, especially English as the medium of learning, whether it is using the various resources in the library or on the internet. Hence, the medium of instruction also plays a vital role in the learning ability of the students. For example, in the MBA program, the students from various backgrounds are admitted. So, the department conducts basic training in Accounting and Quantitative Methods for the students who are admitted from other streams of education, so that they put on the level playing field.

Likewise, to address such similar issues, the learners are assessed periodically by the Continuous Internal Assessment through various activities, like Tests, Seminar presentations, encouraging class participation and such others. Corrective measures are suggested by the course facilitators then and there to the slow learners and the advanced learners are enthused with more inquisitiveness to learning more from the class by working on mini projects, writing working papers and encouraging them to synthesize concepts and research questions.

The Mentors play an imperative role in moulding the students to thrive hard to attain holistic learning. They meet the Mentees periodically and discuss with them the various issues of them and help them in identifying their Strengths and Weaknesses. They pave the way for strengthening the Strengths and weakening the Weaknesses of the students.

Special Classes are conducted by the Department of Youth Welfare in tie up with the District Employment Office, Government of Tamilnadu to help the students of University to hone their skills in Quantitative Aptitude, Verbal Aptitude, Reasoning ability and such other specific skills required to face various Competitive Examinations conducted both at the State and Union Government levels.

The weaker section of the students are identified, if they are chronic failures in any particular course and

Special Remedial Classes are conducted for them by the Departments and the Faculty members take pride in helping the weaker section of the students. These classes are conducted over and above the normal working hours of the University.

2.3 Teaching- learning Process

2.3.1 Student centric methods, such as experiential learning, participative learning and problem solving methodologies are used for enhancing learning experiences

Response:

The University has made its mark in the education system by adopting Choice Based Credit System (CBCS) in letter and spirit. This has contributed significantly in the learning process of the students as a paradigm shift is witnessed over the last decade from Teacher Centric Learning to Pedagogy Centric to Student Centric Learning. This has enhanced the Learning Ability of the students in leaps and bounds as they engage themselves in all the stages of learning.

For example, all the courses offered by the MBA program are conducted through Experiential Learning, Participative Learning and Problem Solving Methods. Case Studies and Interaction with Industry Experts are part and parcel of the program.

The University promotes inclusive practices for social mobility towards social concerns. Students actively participate in all value-based education for inculcating social responsibility towards communal harmony, promoting ethical values, creating environmental awareness programme, plantation of saplings and creating awareness among village farmers about water resource management.

Almost all the departments arrange for Industrial Visits, Educational tours in order to enable the students to

hands-on experience in the actual field of operation after getting placed in various organizations. Live - Project works and Internship are made mandatory in all the Post Graduate programs offered in the University, to ensure that learning acquired by the student community is Experiential Learning.

Participative learning is imparted to the students by engaging them in group tasks, making them discuss various case studies / success stories / historical events and such others.

To enhance the learning process, the University believes in enriching the research activities not only among faculty members but also among students. Hence, the University has initiated the process of providing a seed money of INR 25,000 per student who sells her / his innovative research idea successfully. This has been possible because the University was able to convince this idea to both the Union and State Governments while submitted the proposal for release of Rashtriya Uchcharat Shiksha Abhiyan (RUSA) Grant.

The art of self management for the students is not confined to the four walls of the class room alone. Many Guest Lectures which are of prime importance to add value to the students' life are arranged periodically. The democratic system is completely adhered to, by regular conduct of Student Council Elections and the Student Representatives contribute a lot to the effective administration of the University. This has a positive impact on the learning process as they are participating in the major academic activities of the university.

2.5.4 Positive impact of reforms on the examination procedures and processes including IT integration and continuous internal assessment on the examination management system

Response:

The outcome of the learning process is measured by the evaluation system. This cannot depend on the one

time activity, namely, end semester examination alone. Hence, the Continuous Internal Assessment (CIA) plays pivotal role in making the Teaching - Learning - Evaluation Cycle complete. As the Examination process is completely online, the Continuous Internal Assessment is done on a periodical basis (Centralized Academic Calendar) and the marks are made known to the students immediately after the Internal Assessment Tests are over along with the Interim Report on the Attendance of the Students.

As the entire mechanism is web based, this activity has become time bound. This ensures the adherence to the Academic Calendar and maintains discipline on both the Teacher and the Taught.

As the result of the reforms in the Examination process, both pre - examinations and post - examinations, Transparency in the said process has become an integral part of the system. For example, the revaluation process has two parts. Part A, the student can obtain the Photocopy of the Answer script and Part B for applying for revaluation if the student finds it worth for more marks than what was awarded. This transparency has enhanced the quality of valuation by the Examiners and will help in bringing down the number of grievances to a negligible level.

The integration of Information Technology in the Examination Process has brought in Standardization. The registration of the candidates to the examination, the payment of examination fees through digital payment mechanism, the issuance of hall tickets along with the photographs and individualized Time table printed on the hall ticket, valuation done using dummy numbers, declaration of the results on time, providing tear proof, encrypted Uniform Mark Statements with Photograph and awarding electronically verifiable Degree Certificates are all evidences of having a foolproof system in place.

This surely has a positive impact on the learning process as the students deem it as a value addition in their educational career.

2.5.5 Status of automation of Examination division along with approved Examination Manual A. 100% automation of entire division & implementation of Examination Management System (EMS)

B. Only student registration, Hall ticket issue & Result Processing

C. Only student registration and result processing

D. Only result processing

Response: A. 100% automation of entire division & implementation of Examination Management System (EMS)

Current Manual of examination automation system	Annx 2.5.5.1

2.6 Student Performance and Learning Outcomes

2.6.1 Program outcomes, program specific outcomes and course outcomes for all programs offered by the Institution are stated and displayed on website and communicated to teachers and students

Response:

Each and every program offered by the University has spelt out the Program Outcomes while preparing the Curriculum itself. The Graduate Attributes are clearly understood and sincere efforts are taken by all members of the faculty to incorporate the objectives of the Program, objectives of each and every course offered in the program and the pedagogy to be used in order to achieve the same.

The course objectives and the expected learning outcomes of the courses offered in all the programs are discussed elaborately in the first few sessions of the course delivery and the students are made aware of what is expected out of them at the end of the semester and at the end of the program as far as course outcomes and program outcomes are concerned respectively.

Already the Syllabi for all the programs offered for the students of the Affiliated Colleges are displayed on the Website of the University. Steps are being taken to upload the same for the Students of the University Departments too. Meanwhile, many departments communicate the same to their students through emails.

Periodically, the Teachers and Students are appraised about their whereabouts in the journey of attaining the program / course outcomes.

2.6.2 Attainment of program outcomes, program specific outcomes and course outcomes are evaluated by the institution

Response:

An Academic Audit is conducted by the University to ensure whether the program outcomes are attained or not. The Head of the Department is entrusted with the responsibility of verifying the schedules are adhered to, the course objectives are achieved leading to the successful attainment of the program outcomes, offered by the respective departments.

Intra Departmental Committees are formed to evaluate the quality of the students by randomly going through the various assessment mechanisms and assure whether this mechanism is in tune with the Program / Course outcome. For Example, what percentage of the Course outcome is achieved by the Teacher is evaluated through assessing what percentage of questions is asked in each assessment mechanisms of that specific outcome.

Steps are taken to make it mandatory to scrutinize the Question Papers set by the Course Facilitator to check whether the questions are in commensurate with the level of the program, i.e., Graduate Program or Post Graduate Program and whether they will reflect the expected program outcome in general and course outcome in particular.

A holistic approach is maintained in the learning process by following the guidelines suggested by the Standing Committee on Academic Affairs (SCAA) of the University, with respect to attainment of Program / Course Outcomes and the evaluation.

2.6.3 Average pass percentage of Students

Response: 90.17

2.1.1.3 - Average percentage of students from other states and countries during the last five years:

In Tamilnadu in general and in Manonmaniam Sundaranar University area in particular, nearly 80 % of the Affiliated Colleges are offering PG programs and nearly 25 % of them are having Research centres in various disciplines. These colleges are located in the rural areas of the geographical jurisdiction of the University. Hence, they are able to cater to the need of the students aspiring to pursue Higher Education. As Manonmaniam Sundaranar University is located in an area where Kerala is the only neighboring state, the Affiliated Colleges around the border state in the Kanyakumari District fulfill their needs. Hence, the University Departments attracts the students of the rural mass in the Kanyakumari, Tirunelveli and Thoothukudi districts. The location disadvantage of the student is converted into a location advantage by admitting more students from the nearby areas, thus reducing their cost of education.

2.1.2.1 Demand Ratio (Average of Last five years) (4)

2.1.2.2 - Demand Ratio:

The Conventional PG programs in Basic sciences like Mathematics, Physics and Chemistry are always the most sought after programs in any higher educational institution, for which Manonmaniam Sundaranar University is not an exception. The professional programs like, MBA and MCA are attracting many applicants despite the changes in the employment trend in the IT industry and such other related industries. However, new non conventional courses like Pharmaceutical Chemistry, Applied Geophysics, Microbiology, Nano science and such other courses are not yet popular among the young graduates who wish to pursue Higher Education in these disciplines. Moreover, these aspirants choose Institutions in the Tier II or Tier I cities only. As the University promotes more research work than the PG programs, as they are offered by many affiliated colleges, the low demand ratio for many programs has pulled down the overall, *i.e.*, the average Demand Ratio.

2.1.3.1 Average Percentage of seats filled against reserved for various categories as per applicable reservation policy during the last five years (3)

Year	Number of seats earmarked for reserved category as per GOI or State Government rule					Number of students admitted from the reserved category					Total admitted
	SC	ST	OBC	Gen	Others	SC	ST	OBC	Gen	Others	
2012-13	177	20	482	308	0	190	18	470	136	0	678
2013-14	138	14	366	235	0	122	15	269	87	0	406
2014-15	148	18	398	258	0	133	5	280	94	0	418
2015-16	168	19	452	296	3	132	6	316	107	0	454
2016-17	183	18	492	322	3	138	2	448	112	0	588

2.1.3.2 - Average percentage of seats filled against seats reserved for various categories as per applicable reservation policy during the last five years:

The one of the missions of the university is to reach the unreached. In pursuit of achieving this, the University is supported by the reservation policy of the State Government which has given a higher percentage (69 %) for the reserved category.

The breakup of the seats in percentage for the reserved category is given as follows:

Category	Percentage of Seats earmarked	Considered for NAAC calculation as
ST	1	ST
SC	18	SC
Most Backward Class	20	OBC
Backward Class	30	
Open Competition	31	General

However, the University receives more applicants from the marginalized section of the society and hence, the actual number of students admitted in the reserved category are more than that of the number of seats ear marked for the students from the reserved category.

2.2.2 Student - Full time teacher ratio (10)

Year	Program Name	Number of students enrolled in the institution (UG)	Number of students enrolled in the institution (PG)	Number of full time teachers in the institution (UG)	Number of full time teachers in the institution (PG)	Number of teachers teaching both UG and PG courses

2.3.2.2 - Average percentage of Teachers using ICT for effective teaching with Learning Management Systems (LMS), E - Learning Resources:

The University has taken necessary steps in the past to augment more ICT based resources to be integrated with the LMS of the University. As a result of this 100 % of the Teachers are equipped with the adequate skills to adapt to and use ICT in their Course delivery mechanism. The students are also exposed to the e-learning resources and they are also marching forward in their journey of becoming techno savvy.

While presenting the data in the template, the number of Teachers considered in this sub criterion is the Permanent Teachers alone. Whereas, the while calculating the average percentage of Teachers using ICT, the University believes that the software takes into consideration the total number of all the Teachers, irrespective of whether they are Permanent or Temporary (On Contract).

Hence, the University, in spite of having 100 % of the Teachers using ICT, in this sub criterion, has scored 72 % only.

2.3.3.1 Ratio of mentor to students for academic and stress related issues (10)

Year	Number of students enrolled in the institution	Number of fulltime teachers	Mentor: Mentee Ratio	Department

2.4.2 Average percentage of full time teachers with Ph.D. during the last five years (10)

Year	Number of full time teachers with PhD	Number of full time teachers
2012-13	100	112
2013-14	96	107
2014-15	100	109
2015-16	96	104
2016-17	118	126

2.4.3 - Average Teaching Experience of full time Teachers in number of years:

The University is having 27 departments including the Library, and not all the departments were established since inception. Many of the senior most Professors have retired in the recent past, that too especially during the assessment period of 2012-13 to 2016-17.

After a long gap of five years, in the Academic Year 2016 - 17 only, 27 Faculty members were appointed. Steps are being taken to appoint faculty members for the remaining vacancies too.

Moreover, many new programs are introduced in the emerging disciplines of study in the recent past and hence we have young faculty members for these programs.

As young faculty members were appointed and the services of the retired faculty members were not calculated, the average teaching experience of Full time Teachers in years is believed to have come down, which is always the accepted limitation of any average.

2.4.3.1 Average teaching experience of full time teachers in number of years (10)

Name of the full time teacher	PAN	Designation	Name of the department	Number of years of teaching experience (years and months)
Dr. A. Palavesam	AGPPP3575J	Professor and Head	Animal Science	21

2.5.1.1 - Number of days from the date of end semester examinations till the declaration of the results year wise during the last five years:

In the process of moving from centralized to decentralized, and then to fully automated examination processes, the University was in an experimentation phase during the assessment period. Hence, the average number of days taken for the declaration of the results of the examinations has varied during the assessment period.

In the Academic Year 2016 - 17, the University has moved to a fully automated Examination System. This encompasses all the processes of the Examination System. Right from Pre - Examination process, to Post - Examination Process, each and every aspect of Examination is automated.

The University strongly believes that with the improved mechanism which is incorporated in the current academic year, the average number of days required to declare the results will drastically come down to a level which will be highly appreciated by all the stake holders.

This will eventually reflect in the demand ratio of the various programs offered, positive feedback from the student community who seek employment in the corporate or who want to pursue Higher Education in Institutions of National Importance and in abroad.

2.5.2 Average percentage of student complaints/grievances about evaluation against total number appeared in the examinations during the last five years (5)
