

MANONMANIAM SUNDARANAR UNIVERSITY, TIRUNELVELI

PG COURSES – AFFILIATED COLLEGES

M.Sc. Hotel Management and Catering Science with Applied Nutrition

(Choice Based Credit System)

(Effective from the academic year 2023-2024 onwards)

1. Vision of the University

To provide quality education to reach the un-reached

2. Mission of the University

- To conduct research, teaching and outreach programmes to improve conditions of human living
- To create an academic environment that honours women and men of all races, caste, creed, cultures and an atmosphere that values intellectual curiosity, pursuit of knowledge, academic freedom and integrity
- To offer a wide variety of off-campus educational and training programs, including the use of information technology, to individuals and groups.
- To develop partnership with industries and government so as to improve the quality of the workplace and to serve as catalyst for economic and cultural development
- To provide quality/inclusive education, especially for the rural and un-reached segments of economically downtrodden students including women, socially oppressed and differently abled.

3. Vision of the Department

Excellent education in Hotel Management and Catering Science to bring forth intellectual, professional and social wellbeing.

4. Mission of the Department

- Provide healthy learning environment to imbibe comprehensive knowledge, skills and values to bridge academia, industries and society.
- Promote research and open scientific platforms that transform students proficient and globally competent.
- Nurture moral values among students and help them grow as socially sensible and responsible persons.

5. Preamble

Hotel management deals with the study of healthy Food production, hygienic, cleanliness of the hotel and good relationship with guest. Hotel management holds promises in areas of Health food and Agriculture. The M.Sc. Degree programme aims at providing in-depth knowledge and understanding of the core principles of hotel management and their practical aspects in order to pursue higher studies and employment. The Learning Outcome Based Curriculum Framework (LOCF) for M. Sc. Hotel management programme has been framed as per the guidelines prescribed by University Grants Commission (UGC) under Choice Based Credit System (CBCS).

6. Programme Educational Objectives (PEOs)

The M.Sc. Hotel Management and Catering Science programme is proposed to

PEO1: Provide the fundamental knowledge on different branches of Hotel Management and Catering Science.

PEO2: Impart the theoretical and practical skills in basic and modern techniques in Hotel Management and Catering Science and related subjects.

PEO3: Motivate the students for critical thinking and self-reflection to draw conclusions

PEO4: Inculcate moral values and help them to grow as good citizens.

PEO5: Enable the students with profound understanding in various field of applications and make them competent.

7. Programme Outcomes (POs)

On completion of M.Sc. Hotel Management and Catering Science programme, the student shall be able to

PO1: Discover proficiency in Catering Science in terms of National and International perspective and stay competent in the area of Hospitality Industries.

PO2: Apply critical thinking and scientific knowledge to design, carryout, record and analyze Catering Science investigations effectively.

PO3: Develop various communication skills such as reading, writing, listening, speaking etc. to expose novel ideas in Culinary.

PO4: Inference the problems related to Catering Science disciplines and think systematically and independently to draw a logical conclusion.

PO5: Interpret effectively as part of a team to solve problems, debate different points of view and interact productively with a diverse group of team members in academic world, work place and research.

PO6: Formulate a lifelong learner with moral and ethical values in all aspects of work and day to day life.

8. Programme Specific Outcomes (PSO)

On completion of M.Sc. Hotel Management and Catering Science programme, the student shall be able to

PSO1: Summarize comprehensive knowledge and skills in Culinary Art, Culinary Science, Beverages, Cleanliness, Analytical, Physical, and Hotel Industry.

PSO2: Develop effective communication of the fundamental concepts of Culinary Preparation, Servicing, Cleanliness, and Guest Relationship through enhanced reading of textbooks, library usage, presenting seminars, writing assignments etc.

PSO3: Solve problem solving ability by utilizing the conceptual knowledge and bioanalytical techniques, to solve problems.

PSO4: Discover critical thinking skill and laboratory skills in Catering Science for designing, carrying out and interpreting experiments applied in culinary preparation, Beverage service, Cleanliness, Guest Relationship.

PSO5: Decide to share and impart in-depth knowledge about Catering Science and facilitate to pursue post-graduation in related fields in life sciences and inculcate the research aptitude.

PSO6: Build effectively in the development of ethical practices and societal contributions leading to responsible and competent professionals.

9. Eligibility for admission to the course and examination

Candidates shall be admitted to the course provided he/she has passed under graduation in Hotel Management, Science subject that may be considered as equivalent by the M.S. University.

10. Duration of the Course

The students shall undergo the prescribed course of study for a period of not less than three academic years (Four semesters). Each semester contains 90 working days.

11. Medium of instruction and examination

The medium of instruction as well as examination will be in English.

12. Theory examination

The external evaluation will be based on the examination to be conducted by the university at the end of each semester.

13. Practical examination

Practical examinations will be conducted at the end of each semester.

14. Evaluation

- A.** Each paper carries an internal component
- B.** There is a pass minimum of 40% for external and overall components

Theory External: Internal Assessment = 75:25

Practical External: Internal Assessment = 50:50

C. Internal Assessment

Internal marks for Theory shall be allocated in the following manner.

The average of the best two tests from three compulsory tests	20 Marks
Assignment	05 Marks
Total	25 Mark s

Note: Each test will be of one hour duration.

D. Practical

Internal marks for Practical shall be allotted in the following manner.

Experimental work	20 Marks
Record	10 Marks
Model Test	20 Marks
Total	50 Mark s

E. Project Work

Components	Marks
Project Report	75 Marks
Viva –Voce	25 Marks
Total	100 Mark s

Note:

- i) Students should carry out group project in major subject.
- ii) Project report will be evaluated by Central valuation and Viva-Voce will be conducted by both the External examiner and the Guide at the end of the 4th semester.

15. Grading System

The performance of the student is indicated by the Seven Points Scale Grading System as per the UGC norms given below

Grade	Grade point	Percentage of marks	Performance
O	9.5 and above	95-100	Outstanding
E	8.5 and above	85-94	Excellent
D	7.5 and above	75-84	Distinction
A	7 and above	70-74	Very Good
B	6 and above	60-69	Good
C	5 and above	50-59	Average
RA	0	Up to 49	Re-Appear

The overall performance level of the candidates will be assessed by the following formulae:

$$\text{Cumulative weighted average of marks} = \frac{\Sigma(\text{marks} + \text{credits})}{\Sigma \text{credits}}$$

$$\text{Cumulative weighted average grade points} = \frac{\Sigma(\text{Grade points} \times \text{credits})}{\Sigma \text{credits}}$$

16. The question paper pattern for all theory papers shall be as follows.

Duration of Exam: 3Hours

Section	Type of questions	Mark
Part-A	Multiple choice question (Two question from each unit compulsory)	1×10=10 Marks
Part-B	Internal Choice questions (One question from each unit: either/or)	5×5=25 marks
Part-C	Internal Choice questions (One question from each unit: either/or)	8×5=40 marks
	Total	75 Marks

17. The question paper pattern for all practical papers shall be as follows.

Duration of Practical Exam: 3 hours

1	Major experiment	25
2	Minor Experiment	15
3	Spotters	05
4	Record	05
	Total	50 Marks

MSU/2023- 24 /PG colleges/ (M.Sc. Hotel Management & Catering Science with Applied Nutrition) Semester I/ Core I

ADVANCED KITCHEN OPERATIONS & KITCHEN HYGIENE

Objectives:

1. To understand kitchen organization, planning, and staffing.
2. To understand kitchen management process ,menu planning, budgeting and safety
3. To understand kitchen equipment's
4. To translate knowledge into new context on kitchen design.
5. To translate knowledge into new context hygiene sanitation.

Unit I

Kitchen Organization

- a) Kitchen Planning – Model Kitchen Organization
- b) Kitchen staff - Duties & Responsibilities of Kitchen Staff
- c) Kitchen Staff – Principles, Function, Planning, Direction, Coordinating and Evaluating.

Unit II

Management Process

- a) Kitchen Management –Purchasing Procedures, Supplies, Quantity control,
Calculating cost price, Portion control, Budget planning
- b) Western culinary terms - Food production system & various production process.
- c) Safety procedures – Fire precautions,

Unit III

Equipment Process

- a) Classification, Selection of various kinds, Equipment source or supply, Equipment design, equipment way of operation, purchasing of various kinds of equipment.
- b) Planning of various Menus – Types of menus, construction of various menus.

Unit IV

Kitchen Designing

- a) Designing of kitchen – Size and types of various kitchen, Developing various kitchen plans, various kitchen layouts plants.
- b) Storage spaces- Location and various types of storage spaces
- c) Sanitation, Security & safety of storage spaces.

Unit V

Hygiene and Sanitation

- a) Kitchen Hygiene and Sanitation – Hygiene in food handling & personal hygiene.
- b) Safety measures, Accidents from improper place of various equipment , safety procedures, safety training, some useful safety devices
- c) Legal responsibilities of chef, Laws governing Food Service establishment, Labour laws, Food Standards and Food laws.

Reference:

1. Krishna Arora – Theory of cookery
2. Ronald kinton – Theory of catering
3. Mohini Sethi – Catering Management
4. Thangam E.Philip – Modern Cookery Voll

Course Outcomes

On completion of the course, the students will be able to

CO. No.	Core – 1: ADVANCED KITCHEN OPERATIONS & KITCHEN HYGIENE	Cognitive Level
CO1	Describe kitchen organization, planning, and staffing	K2
CO2	Outline of quantity equipment's, Menu planning, and regional cuisines.	K2
CO3	Explain about kitchen equipment's	K2
CO4	Explain about on kitchen design	K2
CO5	Explain about on hygiene sanitation	K2

Remember (K1); Understand (K2); Apply (K3); Analyze (K4); Evaluate (K5); Create (K6)

MSU/2023-24/PG colleges/ (M.Sc. Hotel Management & Catering Science with Applied Nutrition) Semester I/ Core-II

ADVANCED FOOD AND BEVERAGE SERVICE

Objectives

1. To develop the knowledge and understanding of restaurant service in the hotel and catering industry.
2. To gain knowledge at restaurant and there equipment's and there used.
3. To understand information about Menu and Menu planning.
4. To understand information about Non-Alcoholic and Alcoholic beverage.
5. To understand information about Service & Beverage Control.

Unit I

Introduction

- a) Introduction and Evolution of Hotel Industry
- b) Role of Catering Establishment in the travel/tourism industry
- c) Types of Food & Beverage Operation – (classification) commercial, Residential, Nonresidential.
- d) Different outlets of F & B Service, Coffee shop – restaurant, bar, room service, discotheque. Barbeque, night clubs, banquets, outdoor catering.
- e) Welfare –industrial/institutional/transport (Air, Road, Rail, Sea)
- f) Hierarchy of F & B Outlets, Duties & responsibilities of each level of staff, Attributes of services personal, Inter – Department Relationship, Co-operation & Co-ordination.

Unit II

Restaurant Operation

Classification of equipment:

- a) Familiarization of equipment – Criteria for selection, requirement, Crockery, tableware, cutlery, glassware, silver including furnishings, silverware, Silver cleaning methods.
- b) Other equipment – care & maintenance of equipment

- c) Cover – Definition & Size
- d) Size of table clothes, baize serviettes, Napperons and their uses
- e) Rules for laying a table
- f) Types of Service English, Silver, Russian, American & others
- g) Food Service Rules for waiting at a table (receiving, order taking service & settlement). h)

Operation of K.O.I

- i) Significance of Kitchen Stewarding.
- j) Ancillary Department
- k) Still room – plate room, pantry; Hot section – Food pick up areas, storerooms; linen room – kitchen stewarding.

UNIT III

Menu & Menu Planning

- a) Definition – points to be considered while planning menu
- b) Types of menu - Ala carte, Table d'hote, banquet menu
- c) Types of meals – (Indian/continental) Breakfast, Brunch, lunch, hi-tea,
- d) French classical menu, Menu engineering

Unit IV

Non-Alcoholic and Alcoholic beverage

I. Non-Alcoholic beverages

II. Alcoholic beverages

A) Wine

- a) Stimulating, Refreshing, Nourishing , Tobacco – Ciger, cigarette, pipe tobacco, chewing tobacco
- b) Alcoholic beverage, Introduction, definition , classification types and production of wines
- c) Wine producing countries of the world including India
- d) Food and wine combination
- e) Storage of wine
- f) Service of wine

B. Beer

Introduction, Definition, Types, Bottled & Canned Beer, Draught Beer production, Storage & Service,

C. Sprit:

Introduction, definition, production (Post still & Parent still method), Rum, Whisky, R.Gin, Brandy, Vodka, Tequila, other sprits, Services.

D. Liquates

Definition, History, Production, Categories.

E. Cocktails

Classification, bar equipment, preparation and Service, Method of mixing food and matching drink.

F. Mocktails

Menu terminology, mocktails related to non-alcoholic beverage,

Unit V

Service & Beverage Control

A) Dining Service : Method & Procedure

Mise-en-scene and mise-en place including arrangement of sideboard, laying tables for different meals. Re-laying table cloths and folding serviettes, restaurant reservation system, receiving the guest, method of service, fresh/family, English/silver, buffet, Banquet, room service, trolley.

(B) Non- Alcoholic Beverages

Tea – types

Coffee – types

Juices, soft drinks –mineral and tonic water

Simple control system

Necessity &function of a control system – F & B Control cycle,

Bar, Layouts, Types of Bar – proof system

Beverages Control Measures:

Allocation
 Bar Ledger
 Indent, receipt and issue of Liquors
 Cellular maintenance
 Different measures (ounces)
 Legal points
 Theft control procedure Record keeping

Reference:

1. Food & Beverage services – Dennis R.Lillicarp, John A.Counins
2. Modern Restaurant Service – John Fuller
3. Professional table service – Sylvia Major, Edy Schmid & Christen Supplier
4. Food & Beverage Service – SudsierAndrews.

Course Outcomes

On completion of the course, the students will be able to

CO. No.	Core – 2: ADVANCED FOOD AND BEVERAGE SERVICE	Cognitive Level
CO1	Describe restaurant service in the hotel and catering industry.	K2,K3
CO2	Outline of restaurant equipment’s and there use	K2,K3

MSU/2023-24/PG colleges/ (M.Sc. Hotel Management & Catering Science with Applied Nutrition) Semester I/ Core III Practical-1

ADVANCED KITCHEN OPERATIONS & KITCHEN HYGIENE

Objectives:

1. To understand quantity equipment's, Menu planning, and regional cuisines.
2. To predict various cuisines and their ingredients.
3. To demonstrate correct usage of various sauces, various gravy.
4. To demonstrate correct usage of raw food items.
5. To demonstrate correct usage of variants cuisines.

1. Identification of cooking materials.
2. Identification different
3. Kitchen equipment.
4. Various vegetable cutting.
5. Various Method of cooking.
6. Identification of various vegetable cutting.
7. Identification of pest and their control measures.
8. Preparation of various stocks and sauces.
9. Identification of pest and their control measures.

To formulate 10 sets of menu consisting of 5 dishes from the following regions:

1. Andhra Pradesh
2. Bengal

3. Chettinad
4. Goa
5. Gujarat
6. Kashmir
7. Karnataka
8. Kerala
9. Maharashtra
10. Punjab
11. Rajasthan
12. Tamil Nadu

Note: the menu should consist of rice, Indian breads, chicken/mutton/fish/salads/vegetable and sweets. More weightage given to Chettinad & Kerala.

INTERNATIONAL CUISINE (INDIVIDUAL)

To formulate 10 sets of menu consisting of 4 dishes from the following countries mentioned below:

1. American
2. Chinese
3. Greece
4. Holland
5. Indonesia
6. Italian
7. Japanese
8. Malaysian
9. Mexican, Portugal

ADVANCED FOOD AND BEVERAGE SERVICE

Objectives:

1. To understand various service equipment's, Menu planning, and food and beverage outlets.
2. To demonstrate various types of services.
3. To demonstrate how Alcoholic and nonalcoholic beverage served to guest.
4. To demonstrate how beer served to guest.
5. To demonstrate how Red wine, white wine and sparkling wine served to guest.

1. Identification of cutlery, crockery and glass ware

2. Laying a relaying of Table cloth (according to menus)
3. Laying & Relaying of tables cover (Breakfast, A la'carte and Table D' hote)
4. Different types of napkin folds.

(Lunch, Dinner, Breakfast)

5. Service of Food Tea and Coffee

Receiving the Guest

Presenting the menu card

Taking order

Service of food course by course and clearance

Raising K.O.T

Presentation of Bill

6. Service of Non-Alcoholic drinks:

Tea

Coffee

Aerated water

Juices

Mineral water

Non Alcoholic mixed drinks

7. Service of Alcoholic drinks, Mockbar, Bar Service, Setting up a taking order of wine floating bar

Wine – list

Writing order

Service of wine – White and Rose

Red wine & Red wine in basket

1. Taking order of sprits
2. Services of Sprit, Aperitif, Lacquerers, Beer, Cock oil and mixed drink
3. Taking Order of Cocktail

4. Preparation of Cocktail
5. Service of Alcoholic Beverage in room
6. Carving at the table
7. Roast Chicken
8. Roast Leg of Lamb
9. Banquets - Drawing table plan for Banquets, Compilation of Banquet, menus of Special function menus, Banqueting service procedure, Mock service, Lunch Supervision.

Course Outcomes

On completion of the course, the students will be able to

CO. No.	Core III practical 2 ADVANCED FOOD AND BEVERAGE SERVICE	Cognitive Level

Principles of Tourism and Hospitality Management

Objective:

1. To understand information about tourism and Tourism industry.
2. To understand information about tour planning.
3. To understand information social and cultural tourism.
4. To understand information on the role Economic.
5. To gain knowledge about management challenges.

Unit I

Introduction:

Concept of management in tourism industry, Role of managers in tourism industry, Tourism as behavior.

Unit II

Importance of Tourism Planning, Nature, Scope, Process, Steps, Types and Limitation of Planning

Unit III

Social and Cultural Dimensions

Societal culture and tourism, Social and Cultural behavior, Interaction and Impacts.

Unit IV

Economic Dimension

Types & components of tourism, Socio- economic importance of tourism, Tools of tourism economics.

Unit V

Management Challenges

- a) Leadership & team management, Decision making Manpower Management.
- b) Organization structure, Motivating factors, financial management

Reference:

1. Tourism & Hospitality Industry – Fridge
2. Hotels for Tourism Development – Dr Jagamohan Negi
3. Tourism Management by Akshay kumar
4. Tourism Planning – Gunclare A
5. Tourism Management – P.N. Seth

MSU/2023-24/PG colleges/ (M.Sc. Hotel Management & Catering Science with Applied Nutrition) Semester I/ Elective-II

HOTEL ENGINEERING

Objectives:

1. To Learn information about hotel industries maintenance,
2. To understand information about plant units methods, electricity.
3. To understand information about Water quality, water management.
4. To illustrate information about Refrigeration, Walk- in coolers and freezers.
5. To understand information about transport system, pollution control and fire fighting in hotel interstices.

UNIT –I

Role and important of Maintenance Department in hotel industries with emphasis on its relation with other department of the hotel. Organization chart of maintenance department. Duties and responsibilities of maintenance department.

Maintenance- Preventive and Break – down maintenance.

Fuel in catering industry: types of fuel used in catering industries, calorific value, comparative study of different Fuels, calculation of amount of fuel requires and cost.

UNIT – II

Gas: hear terms and units methods of transfer, LPG and its properties ; precaution to be taken while handling gas; low and high pressure burners, corresponding heat output, care and service of gas equipment, gas meter reading.

Electricity: importance and its use. Meaning of ampere, volt, ohms and their relations, ohms law, AC & DC their difference, Importance of NEC (National Electric Code), under writer’s laboratory, lay of circuits of power requirements, meter reading and bill calculations. Electric power rate schedule.

Earthing: meaning and its importance. How it is done?

UNIT –III

Water system Management: sources of water and its quality, distribution of water supply system and its storage. Hardness in water and its removal methods, Elements of water system.

Sanitary systems: sink, basins, WC, inspection chambers, soiled Pipers, water taps.

Waste disposal: soil and liquid waste, sullage and sewage, disposal of solid waste, sewage treatment.

UNIT- IV

Refrigeration: principals and uses of refrigeration in catering industry. Basic scientific principles of different types of refrigeration systems and refrigerates. Walk- in coolers and freezers. Care and maintenance of refrigeration systems.

Conditions for comfort: Air movement, humidity control, ventilation methods, ventilation rates for different rooms. Air- conditioning: types

Energy conservation: Energy conservation barriers; methods of conserving electrical and water energy.

UNIT –V

Transportation systems: Passenger's elevators, freight Elevators, dumb waiters, escalators, side- walks – Operation and their maintenance.

Fire prevention and fire Protection: meaning of fire, different types of fire, fire hazards, fire extinguishers, fire alarm systems.

Pollution control: Water pollution, thermal pollution and sewage pollution.

REFERENCE:

1. Hotel engineering and Maintenance in Hospitality Industry – Frank M. Borsenik – Van Nostrand Reinhold.
2. Principal of Hospitality Engineering – John D.Palmer- Van Nostrand Reinhold.
3. Theory of catering- Ronald Kinton & Victor Cesarani –ELBS

Course Outcomes

On completion of the course, the students will be able to

CO. No.	Elective-II-HOTEL ENGINEERING	Cognitive Level
CO1	Explain about hotel industries maintenance.	K2
CO2	Outline of plant units methods, electricity.	K2
CO3	Explain about Water quality, water management.	K2
CO4	Explain about Refrigeration, Walk- in coolers and freezers.	K2
CO5	Explain about transport system, pollution control and fire fighting in hotel interstices.	K2

ADVANCE ACCOMMODATION MANAGEMENT AND INTERIOR DECORATION**

Objectives:

1. To gain various activities to handle in Housekeeping in the Hotel industry.
2. To understand information about housekeeping organization.
3. To understand information about Budgeting and record maintaining in housekeeping.
4. To understand information about linens, uniforms laundering used in hotel industry.
5. To gain knowledge about elements of art and how to apply it in the interiors.

Unit – 1

Introduction:

- a) Planning and Organizing the house keeping departments
- b) Role of Housekeeping (in the hotel and in guest satisfaction and repeat business)
- c) Organization structure of Housekeeping departments in small, medium & large hotels

Area of Cleaning:

- a) Cleaning equipment – Special cleaning
- b) Manual and mechanical equipment -use and care of equipment , selection of cleaning agents, composition, alkalis, acids, salvias, deodorizers, disinfectant, seal polishes, distribution and Control.
- c) Cleaning of Different Surface
- d) Metal, glass, Plastic, ceramics, wood floor finishers – walls finishers – Maids service room – organizing maids frocleg
- e) Keys – Types of Keys, computerized keys & control keys.
- f) Daily cleaning of Rooms
- g) Checkout rooms occupied rooms-vacant rooms evening services, standard supplies
- h) Ordinary VIP's, VVIPS, placement, Guest special request special cleaning programmes.

- i) Tasks- Schedule & records, public area cleaning – Front, back area, work routine, Guest room inspection.

Unit – II

Housekeeping Management:

- a) House Keeping - Introduction, Duties
- b) The Programme implementation – Executive House keeper
- c) Deputy Home Keeper.
- d) Floor Supervisor (Morning, Late duty, Night Shift, routine duties explaining record maintained)
- e) Desk top supervisor (Routing duties explaining records maintained).
- f) Store Keeper (Task performance & Record Maintained)
- g) House – Routine duties
- h) Linen and laundry staff.

Unit – III

Budgeting and record maintaining

- a) The budget Process – Planning capital budget Planning Operating budget
- b) Operating budget – Controlling expenses income statement.
- c) Purchasing system – methods of buying stock records issuing and control
- d) Record keeping & Dealing with Guest Lost & Found
- e) Housekeeping clerical works- lost of founds register, lost of found enquiry file mixed report, Housekeeping report, handover records, guest special request register, records of special learning, attendance record, rotes stock register, VIP list.

Unit – IV

Laundry

- a) Introduction, Duties & responsibilities of Laundry personnel Flow process of industry laundry Equipment of layout of laundry Equipment of layout of laundry, Dry cleaning & Guest laundry

Hotel Linen

-
- b) Classification Items classified as bed and baths linen, Items classified as table linen, their sizes, Selection criteria for linen clean (bed sheets, pillow covers, towels and bathmat's table cloth serviettes. Selection criteria and Calculating materials required
 - c) for soft furnishing (Curtain, bed sheet, upholstery & costumes) Linen room Activities of Linen room, Layout & equipment used in linen room, Linen room staff Buying of linen and calculation of linen, Procedures & records to be maintained Stock taking procedures records Recycling of Linen, Marking of Menu records

Uniform

- d) Advantages to management and employees, Uniform terms, uniform sets given to employers. Issuing, Storage and Laundering Procedure of Records, Selection and designing. Layout of uniform rooms and duties of uniform room staff.

Unit – V

Interior decoration

- a) Elements, types of principles of design, characteristics of good design, Meaning types of methods of obtaining Harmony, Preparation, Balance, emphasis, Rhythm.
- b) Qualities of colour in interior decoration
- c) Colour and emotion - use of colour in interior decoration
- d) Furniture selection-Care and Selection of furniture in dining room, Office, bed room.
- e) Hotel illumination-function, factors to be considered, types of illumination, planning for various areas.
- f) Flower arrangement-Purpose of Equipment and materials required, Conditioning of plant materials, Types of arrangement, Special occasion decoration, Theme decoration (Suspended, Floor carpet, Centrepiece)

Reference:

1. Home Management – M.A. Varghese, N.N. Ogale, K. Srinivasan
2. Home Management – Arya Publishing House – by Educational Planning Group
3. Hotel, Hostel & Hospital Housekeeping – Joan C. Branson
4. Hotel House Keeping manual – Sudhir Andrews

Course Outcomes

On completion of the course, the students will be able to

CO. No.	Core IV - ADVANCE ACCOMMODATION MANAGEMENT AND INTERIOR DECORATION	Cognitive Level
CO1	Describe activities to handle in Housekeeping in the Hotel industry	K2,
CO2	Discuss information about housekeeping organization.	K2,K3
CO3	Explain about Budgeting and record maintaining in housekeeping	K2,K4
CO4	Explain about linens, uniforms laundering used in hotel industry	K2
CO5	Explain about elements of art and how to apply it in the interiors	K2

Remember (K1); Understand (K2); Apply (K3); Analyze (K4); Evaluate (K5); Create (K6)

ADVANCED FRONT OFFICE OPERATION**

Objectives:

1. To gain knowledge about hotel industry, its importance, place of front office, task which is carried out by each section.
2. To understand knowledge about registers and forms used in reception.
3. To understand information about advanced Front Office Operation.
4. To understand information about front office accounting.
5. To make the students gain knowledge about types of reservation, computerized revenue yield management.

Unit - I

- a) Hotel – Introduction, Growth, Origin, Opportunities, Types of Hotels
- a) Organization of Hotels - Organization chart of large, medium and small hotels, Organization and layout of front office, Importance of Receptionist and Status of Receptionist as a partner in the hotel industry

Unit – II

a) Front Office

Introduction to front office, Qualities of front office staff, Duties and responsibilities of front office staff, Front office assistant, importance of job description, job description of front office assistant.

b) Front office equipment:

Manual system, Semi-automatic system, Automatic system, Types of rooms, types of plans, tariff structure.

c) Registration

Receiving and greeting the guest, Setting skills, Types of registration, Registration Operating modes, Assignment, Rooming procedure.

d) Group Arrival

Reservation – Importance, Advance reservation office, forecasting room reservation, Over booking, Diaries and charts used in reservation, Whitney rack system, Rights and Liabilities of hotels, travel agencies in room reservation, Reservation Terminology and Cancellation and amendment.

Unit – III

Advanced Front Office Operation

a) Lobby

Stages of guest contacts with the hotel (Pre arrival, arrival during stay departure), Procedures for left luggage, scanty baggage and safe deposit facility, Guest mail handling, Paging

b) Bell Desk Services

Mail services – messages, Keys, Local information, Bell desk activities. Bell captain and Bell Boy – Duties & responsibilities, Errand card.

c) Telephone:

Telephone procedure, telephone manners, telex, layout, - Telex equipment, Fax procedure, Qualities of Good telephone operator, Different telephone code, wake-up call procedure.

Unit – IV

a) Front Office Accounting

Guest accounting system – objective, Job description of front office cashier, Types of Guest Accounting - Flow of Guest, Accounting Process, Records & Ledger maintained by cashiers, Ways of settling bills.

b) Night Auditing

Function of night auditing, Job description of night auditor, Cross checking, Credit monitoring, Cancellation, Daily & Supplementary room rates, Night Audit process, Preparing night audit reports, Closing the folio.

c) Planning & Evaluation

Establishing room rates, Rule of thumb approach & Hubbarts formula, Forecasting room availability, Room revenue analysis, percentage of walk-in, percentage of over stay, percentage of under stay, Break even & pricing analysis, Refining budget plans.

Unit – V

Yield Management:

Concept of yield management & measuring yield - Objectives & benefits of yield management & measuring yield, Potentials average for single & double room rate, Multiple occupancy percentage, Rate spread – potential average, Room rate achievement factor, Yield and logical yield, Equivalent occupancy, Required non-room revenue for guest.

**ADVANCED ACCOMMODATION MANAGEMENT AND INTERIOR
DECORATION**

Objectives:

1. To demonstrate public are cleaning,
2. To demonstrate use of cleaning equipment's.
3. To demonstrate policing and cleaning of all surface.
4. To demonstrate strain removing in housekeeping.
5. To demonstrate room cleaning.

1. Area of cleaning

Rooms, Bathrooms, Toilet Wash Basin, Bath, tub, sink, Table, Floor, Water Closet, Staircase, Corridor, Carpet.

2. Identification of cleaning equipment selection, use, mechanism & Maintenance

3. Sequence of Cleaning

Cob web taking

- a) Dusting
- b) Sweeping
- c) -Scrubbing
- d) -Mopping
- e) -Carpet cleaning
- f) -Carpet Shampooing
- g) -Vacuum Cleaning

4. Polishing & Cleaning

Metals, Wood, Plastic, Leather tiles, Brassware, Furniture

5. Register Maintained in House Keeping - Lost and Found

6. Cleaning (Weekly, daily, Spring)

- For cleaning Equipment
- Knowledge of equipment & agents and in House keeping
- Identification of Table lines-Room Linens & Both Linen – Selection, use care and maintenance

Identification of Table lines-Room Linens & Both Linen – Selection, use care and maintenance

4. Stain Removal

- i Identification of stains
- ii Cleaning agents used for removal of stain
- iii Practice on removal of stain, selection of cleaning agent – General – Principles.
- iv Linen items, Uniform items, Floor, Bathroom, Toilet.

6. Duties & Responsibilities of House Keeping Staff

Executive House Keeper

Assistant House Keeper

Floor & Public area Supervisor

Room Attendance

House Men

7. Planning and Execution of a theme

Color Schemes wall- Interior and extension Lighting-Flower arrangement-Obtaining principles of design furniture selection –Visits-Different types of Hotel / Accommodation sector- To study the various housekeeping operation – room layout system & Procedures Interior-Decoration

Industrial Laundry

Workshops of Interior designers / decorators

Furniture – Soft furnishing designers

ADVANCED FRONT OFFICE OPERATION**

Objective:

1. To demonstrate knowledge about reception.
2. To demonstrate knowledge about reservation.
3. To demonstrate understand information about advanced Front Office Operation.
4. To demonstrate about bell desk.
5. To demonstrate about types of reservation, computerized revenue yield management.

1. Reception

- Wishing/greeting the guest.
- Registration & room allotment
- Situation handling
- Register maintained

II. Reservation

- Reservation form – confirmation
- Reconfirmation
- Reservation enquires
- Diaries & Charts used in reservation

- Whitney rack handling
- Knowledge of reservation terminology.

III. Information

- Mail handing
- Receiving / Passing message to guest
- Local information
- Tour arrangement details
- Travel

IV. Telephone Operator

- Handling of telephone
- Receiving / connecting calls to guest/staff
- Wake-up calls

V. Bell Desk

- Luggage handling procedure
- Errand card
- Scanty baggage

VI. Responsibilities of Front Office Staff:

Front Office Lab:

- Floor to change in to marble (or) Tiles
- Wall to be painted with ivory paint (or) colour chosen.
- Front office counters (Reception) to be constructed inside the hall.
- Partition wall to be created between Restaurant and front office room.

Verandah

- Floor to be changed up to the entrance (steps)
- Either grill window (or) glass window to be created on three sides of Verandah.
- An enquiry counter to be created at the corner.
- Wall to be painted with color chosen.

Model Guest Room

Guest room floor to be changed into Marble (or) Tiles.

- Wall to be painted
- Western closet has to be constructed with wash basin and mirror Unit, bath tub (or) cabinet to be created.
- Front office manager
- Front office Assistant
- Receptionist
- Lobby Manager / GRE
- Handling credit card procedures
- Handling Guest messages
- Guest accounts – practice on preparation
- Folios
- Larger in creating & maintenance (manual & automatic)
- Role play on Receiving the guest Registering the FIT, GIT, Crews, VIP

Course Outcomes

On completion of the course, the students will be able to

BAR MANAGEMENT

Objectives:

1. To gain knowledge about Beverage Management in hotel industry.
2. To understand knowledge about Bar Service Procedures in hotel industry.
3. To understand information about Guest Relation and Sales Analysis.
4. To understand information about Cocktails in bar.

5. To make the students gain knowledge about Safety preparations.

Unit I

Beverage Management

- a) Food and Beverage outlets- Responsibilities of food and beverage management.
- b) Objectives of food and beverage control, fundamentals of control, beverage controlling, calculation of beverage cost, methods of beverage control, control checklist, beverage service methods.

Unit II

Bar Service Procedures

- a) Service industry introduction- Bar Equipment, Bar preparation, Bar service, taking orders various types of cocktails.
- b) Alcoholic and non-alcoholic liquors - Introduction to liquors, manufacture and service procedure, hard and fruit liquors, storage methods to be followed in bar.

Unit III

Guest Relation and Sales Analysis

Customer relations, personal presentations, customer contact, wine list, Fire E emergencies, fire extinguishers, control and pest, cleaning schedules, laws affecting food and beverage operations, energy management, automatic data procedures, management information system, sales analysis.

Unit IV

Cocktails

Introduction to cocktails, preparing and serving cocktails, receiving, storing and returning of drinks, keg management and drink dispense lines, maintaining cellars, providing a table service

Unit V

Safety preparations

Maintaining safe and secure working environment, on-events of fire, on events of accidents, professional and hygiene appearance, maintaining customer's care, dealing with customer complaints, dealing with various incidents.

COMPUTER APPLICATIONS IN HOTEL MANAGEMENT AND
CATERING SCIENCE**

Objectives:

1. To gain knowledge about computer application used in hotel industry.
2. To understand knowledge about MS word.
3. To understand information about MS Excel and Access.
4. To understand information about MS Power Point and Paint.
5. To make the students gain knowledge about computerized, gust mail handling.

Unit I

Introduction to Computer

1. . Computer system- Part of the computer
2. . Advantages and disadvantages
3. . Origin and history
4. . Various types
5. . Network (LAN\MAN\WAN)
6. . Linking (Timesharing/Ring/Bus/Star)

Unit II

MS Word

1. Introduction to word
2. Formatting text and Documents.
3. Working with Footer and foot notes- Tabs, Tables and Sorting
4. Working with Graphics, Templates, Wings and sample documents writers, tool
Macros, customer's tool bars, key board, short cuts and menus.
- 5 Mail merge, Labels.

Unit III

MS Excel and Access

1. Introduction to Excel
2. Rearranging worksheets- formatting worksheets- functions
3. Excel chart features.
4. Working with Graphics in Excel.
5. Excel command Macros- using worksheets as databases.
6. Automating-“ what is projects”.
7. Create tables in Access using design view, wizard, entry data, import table from Excel to Access, Link table, Queries, Queries Link table, Form wizard, Auto form, Filter, Reports Chart wizard, Label wizard.

Unit IV

MS Power Point and Paint

1. Introduction to power point
2. Creating presentations related to hotel management and catering science
3. Working with text in power point
4. Working with Graphics in power point related to hall arrangement, wall decoration and room colors
5. Introduction to MS paint – study about toolbox – draw pictures, cut, copy, and paste and save.

Unit V

MS mail and internet

1. Introduction to mail – MS mail and office applications
2. Introduction to internal concepts internet protocols – TCP/IP, FTP, HTTP.
E-mail, WWW and web page – HTML pages, web browser.

Reference:

1. Ws 4 manual
2. MS office 2000
3. MS office 97 Nelson – Tata McGraw Hill
4. The Internet in easy steps-Chris, Russell, Dreamtech Press
5. Working in Microsoft Office Tata McGraw Hill

Course Outcomes

On completion of the course, the students will be able to

CO. No.	Elective IV - COMPUTER APPLICATIONS IN HOTEL MANAGEMENT AND CATERING SCIENCE	Cognitive Level
CO1	Describe about computer application used in hotel industry.	K2
CO2	Outline of about MS word which is used in hotel industries.	K2

CO3	Explain about MS Excel and Access used in hotel industries.	K2
CO4	Explain about MS Power Point and Paint applied in charting.	K2
CO5	Explain about computerized, guest mail handling used in reception.	K2
